SERVICES

No compromise

Jetmail 250. the elegant mail handling system for your office. No compromise, reliable and efficient.

Contemporary design and modern technology for perfect mailing

Every enterprise needs to project a professional image. Correspondence is an important part of that image and an efficient franking system is essential to achieve just the right look.

Jetmail 250 from Northern Services is a compact franking system that delivers a winning combination of advanced technology and legendary Northern Services reliability.

Jetmail 250 is ideal for companies with modest to medium outgoing mail needs, or for personal desktop use. With its modern design and compact dimensions, the Jetmail 250 franking system fits in perfectly with offices of today and tomorrow.

Jetmail 250 delivers no compromise quality and convenience.

Choose Jetmail 250, to be sure of getting the best performance and technology.

Jetmail 250 Memory Cards make updates a breeze

Store custom advertising messages, or tariff changes with ease, using the Memory Card.

Calculate postal charges instantly

The system comes complete with a 2kg interfaced scale to automatically set the right postal charge for franking.

It's as easy as 1,2,3: switch on, let Jetmail 250 calculate your postage, start franking.

Check out these features:

- Access code for franking machine security
- Programmable preset charges and automatic date change for greater efficiency
- Digital ink-jet printing and easy-change ink cartridge for pin-sharp results and clean operation
- Postal credit loading via modem

High resolution ink-jet printing.
